VGA270™ UXGA Monitor / Extension Cable

Rotating 270° degree connectors on each end move from side to side in almost a complete circle

Building upon the popularity of our 45 and 90 degree series of Premium SXGA monitor cables, we developed a UXGA cables with a 270 degree connector on each end. These connectors rotate from side to side in almost a complete circle allowing installation in even the tightest of locations. The connectors feature detents, or “click-stops”, every 90 degrees ensuring signal integrity is maintained. The oversized thumbscrews are slotted for easy connection to your equipment and are available as M/F extension and M/M monitor cables from 1ft to 50ft lengths.

Application:

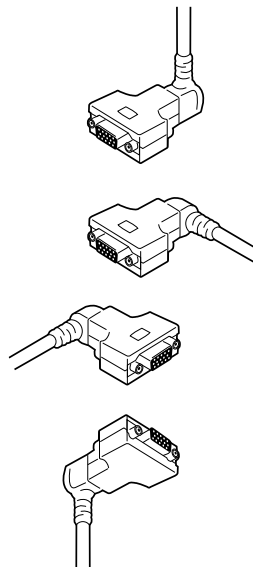

- Low clearance in the tightest places
- Connect PC or Monitors to Projectors
- Connect switches to Monitors or PCs

Common Uses:

- POS & Retail display monitors
- Home Office
- Office buildings
- IT/MIS departments
- Help Desk

Specifications:

- Rotating 270 degree connectors on each end move from side to side in almost a complete circle
- Oversized slotted thumbscrews make connecting to your equipment easy
- Constructed of three coax and four twisted pair and an overall foil and braid shield to support the highest video resolutions
- Ideal for connecting video presentation equipment, video splitters, monitors, and KVMs
- Connectors: HD15 M/F
- Warranty: Lifetime
