

29510 HDBaseT™ HDMI® + USB Over Cat5 Extender

Extend high speed HDMI and USB signal from a media player or computer to a touch screen or interactive display up to 328 feet (100 meters)

Product Features

- Enables extension up to 328 feet (100 meters)
- Fully compliant with HDBaseT 2.0
- Extends HDMI audio/video at 4K resolution
- Extends USB 2.0, IR signal, and serial control communication and features
- Supports EDID pass-through and HDCP 2.2

Application Setup

This HDBaseT HDMI + USB over cat5 extender is an ideal solution to deliver audio, video and USB signals from a computer or media player to an interactive whiteboard, touch screen, digital signage, or other interactive displays. The HDBaseT HDMI + USB over Cat5 extender functions as an interface point for remote terminals, which provides a single simple solution to control remote devices. With 4K HDMI audio/video output and 4 USB ports this kit allows for USB devices like a touch screen, conference camera, mouse, or keyboard next to an HDMI display to be installed in a remote location. This setup provides remote control and access of a computer or other source device installed in a secure location.

Simplify Connectivity

Save time and money with an effortless install. Simply run one solid conductor Cat5e or Cat6 cables up to 328 feet (100 meters) between the transmitter at the source and the receiver at the display, connect all applicable devices, connect the power adapter and turn power on for all devices. There are no drivers to install. This plug and play solution passes EDID and HDCP, and supports all USB 2.0 functionality ensuring quick install and a setup with no configuration.

Recommended Products To Simplify Connectivity

3ft High Speed HDMI
Cable With Gripping
Connectors

29675

75ft Cat6 Snagless Solid
Shielded Ethernet
Network Patch Cable

43168

3.3ft (1m) USB 2.0 A/B
Cable

28101

Package Contents

- Transmitter unit
- Receiver unit
