

### STANDARD EQUIPMENT RACKS

Our computer-guided manufacturing process assures that each rack meets exact dimensions, guaranteeing a self-squaring assembly. Made of top quality 6061-T6 structural grade aluminum, these equipment racks provide strength and stability for years. Racks ship unassembled for efficient delivery and storage.

#### FEATURES:

- Self-squaring and self-supporting
- Tapped uprights so no nuts are required for assembly
- Top angles, patented self-support base are standard
- Assembly hardware included
- Mounting holes are roll formed for work hardened thread system
- Includes 12-24 cross-recessed black panel mounting screws
- Constructed of 6061-T6 structural-grade aluminum
- 3" x 1-1/4" channel uprights

#### PRE-CONFIGURATIONS INCLUDE:

- 5/8", 5/8", 1/2" universal mounting hole pattern
- Equipped with 1/2" junctioning holes for securing multiple-rack lineups
- Meets EIA-310 standards
- Listed to the UL 1863 Standard for Communication Circuit Accessories

### STANDARD EQUIPMENT RACKS

#### 19" Rack – 3" Channel

Part Number	Description
14588	45U 2-Post Open Frame Rack - Black – 84"H x 20.19"W x 15"D, Channel Width: 3", Load Rating: 750 lbs.
14589	45U 2-Post Open Frame Rack - Aluminum – 84"H x 20.19"W x 15"D, Channel Width: 3", Load Rating: 750 lbs.
