

Apple Thunderbolt Cable

- Carries both audio/video and data signals over a single cable
- Supports 10Gbps performance
- Bidirectional data transfer support
- Lifetime Warranty

Specifications: Apple Thunderbolt Cable

Electrical Specifications:

Signal Bandwidth:	5GHz
Nominal Impedance with Tolerance:	±5 OHM
Nominal Velocity of Propagation:	10Gbps
Dielectric Strength:	500ACV/Min
Insulation Resistance:	1524M OHM-Km
Nominal Attenuation:	4.7dB/M@5GHz

Physical Specifications:

Voltage Rating:	3.6V
Minimum Bend Radius:	5mm
Operating Temperature:	10°C to 35°C
Storage Temperature:	-20°C to 47°C
Approvals:	CE
Warranty:	Lifetime

Conductor (4 Pair):

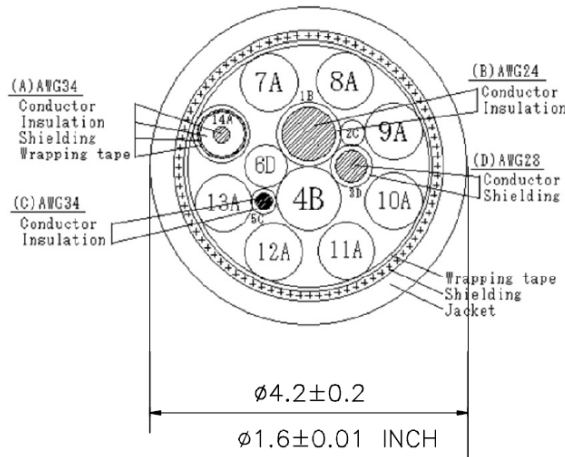

Conductor: 34AWG

Conductor (1 Pair):

Conductor: 34AWG (1/0.220TC)

Overall Cable

Jacket:	PVC
OD:	6.6±0.25

Part Number	Description	Weight (lbs)
30400	0.5m Apple Thunderbolt Cable	
30401	1m Apple Thunderbolt Cable	
30402	2m Apple Thunderbolt Cable
