

TruLink® Media Gateway Connectivity Panel w/iPod + Ethernet + Power - Standard Black - F3

The TruLink® Media Gateway by C2G® is a powerful all-in-one audio/video connectivity panel that enables users to easily and simply connect a wide array of consumer electronics devices to an HDTV. This active connectivity panel provides hassle-free connectivity for laptops, iPod® / iPad® / iPhone®, digital/video cameras, Blu-ray™ or DVD players and game consoles to HDTVs or projectors. The automatic switching functionality provides ease of use, while the USB port adds a convenient way to charge portable electronics. Designed to mount in/under conference room tables, podiums, or other case goods, its versatility makes it a real problem solver for multiple applications in the corporate, education, healthcare and hospitality markets.

- Single HDMI output for all audio and video inputs
- Works with all HDTVs from 480i (NTSC)/576i (PAL) to 1080p
- Consumer Electronics Control (CEC) and RS232 serial support to control HDTVs, projectors and monitors
- Supports audio/video signals from iPod®/iPad®/iPhone® devices; Made for iPod/iPhone certified
- 6Amp combined circuit supports two AC outlets
- Connected device detection allows automatic switching between video inputs
- Charges portable electronic devices via the USB port (500mA)
- Three year warranty
