

C2G
Discontinued - 23ft (7m) Cisco® Compatible SFP+ Twinax Copper Direct Attach Cable (DAC), Active - SFP-H10GB-ACU7M
Part No. CG-00993

□

This Cisco Compatible Twinax Copper Direct Attach Cable is ideal for in-rack and rack to rack equipment connections in datacenters and wiring closets and is equivalent to Cisco part number SFP-H10GB-ACU10M. This cable is designed as a more cost-effective and lower power alternative to optical cable assemblies for short length interconnects between active network equipment in data center and enterprise networking applications. Active components in this cable are used to ensure signal reliability over the entire cable length. This cable is constructed using premium 28AWG, 100 Ohm cable and feature SFP+, SFF-8431 standards based connectors with quick release pull-latches.

Features & Benefits

Compatible with Cisco equipment	Active components support the longer cable length
Direct attach copper cable for 10GBASE connections	QSFP+ (SFF-8436) connectors
28AWG conductor construction	

Specifications

General Info

Product Line	C2G	Color	Silver
Application Sector	Commercial, Industrial	Warranty Type	Lifetime
Type	Active Device, Cable		

Technical Information

Adapter Rear	SFP+ (SFF-8432)	Adapter Front	SFP+ (SFF-8432)
