

C2G
Discontinued - 25ft (7.6m) Value Series™ S-Video + RCA Stereo Audio Cable
Part No. CG-02311

Make the right choice to connect any video source with s-video and composite audio (left/right), to your TV, monitor or a/v receiver. Ordinary "included in the box" s-video cables often use low quality materials with inferior shielding that can result in poor picture quality. But our s-video/RCA cables deliver all the detail, color and brightness you expect from your audio/video equipment.

The s-video component is constructed from individually double-shielded 75 Ohm coaxial cable that delivers high quality video images. The dual coax design carries the Video (Y) signal separate from the Color (C) to provide higher resolution and better picture quality.

The dual audio conductor is high quality 26 AWG 90% spiral-wrapped with tinned copper to provide shielding against EMI and RFI interference, and reduce unwanted noise and distortion. Gold-plated terminals ensure long-lasting, corrosion-free connections. Fully molded connectors provide excellent strain relief to keep your cable intact while the PVC jacket provides added flexibility and durability.

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120023111	Country Of Origin	China
Application Sector	Commercial, Residential	Type	Cable

Dimensions

Cable Length	25 ft
--------------	-------

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	26 AWG
Cable Type	Audio, Video	Connector 2	RCA Stereo Audio Male, S-Video Male
Connector 1	S-Video Male, RCA Stereo Audio Male
