

Engineered with high quality connectors and a specialized wire type, these parallel printer cables provide an increased data rate and two-way communication of IEEE-1284-compliant printers and scanners. These parallel printer cables enable high speed, bi-directional communication between a desktop PC and a peripheral. Foil shielding and coverage braid provide maximum resistance against harmful EMI/RFI, and help to achieve the maximum performance from attached peripherals.

Features & Benefits

Maximum resistance against harmful EMI/RFI	17-pair wire twisted with at least 36 turns per meter
Foil shielded with 85% coverage braid	Molded connectors

Specifications

General Info

Product Line	C2G	Color	Beige
Application Sector	Commercial, Industrial, Residential	Type	Cable

Dimensions

Cable Length	100 ft
--------------	--------

Technical Information

Cable Type	Adapter	Connector 2	Centronics 36 Male
Connector 1	DB25 Male
