

To enjoy the increased data rate and two-way communication of your IEEE-1284 compliant printer or scanner, you need a cable with high quality connectors and a specialized wire type. Our cable provides increased speed and functionality over standard parallel cabling. Seventeen pair wire twisted with at least 36 turns per meter, molded connectors, foil shielding and 85% coverage braid soldered 360° to the connector shell all provide maximum resistance against harmful EMI/RFI, and help you to achieve the maximum performance from your peripheral.

## Features & Benefits

- Shielded to prevent unwanted EMI/RFI interference
- Connector thumbscrews for a quick and easy connection
- Fully molded cable design

## Specifications

### General Info

Product Line	C2G	UPC Number	757120061045
Country Of Origin	China	Application Sector	Residential, Commercial, Industrial
Type	Cable		

### Dimensions

Cable Length	10 ft
--------------	-------

### Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

### Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Cable Type	Parallel
Jacket Rating	Standard Non-Rated	Adapter Rear	DB25 Male
