

These cables are designed as a more cost-effective and lower power alternative to optical cable assemblies for short length interconnects between active network equipment in data center and enterprise networking applications. Our SFP+ cable assemblies are constructed using premium 24AWG or 30AWG, 100 Ohm cable and feature SFP+ SFF-8431 standards based connectors with quick release pull-latches. These assemblies support 1x, 2x, 4x, and 8x Fiber Channel data rates, meeting or exceeding current standards specifications.

Features & Benefits

Copper cable assembly	Cost-effective, short length alternative to optical cable
Perfect for 10Gb Ethernet and Fiber Channel applications	Available in lengths up to 15m

Specifications

General Info

Product Line	C2G	Color	Black
Type	Cable		

Dimensions

Cable Length	6.6 ft
