

## C2G 1.6ft (0.5m) Passive External Mini-SAS Cable (TAA Compliant) Part No. CG-06175

Mini-SAS four lane, passive twinaxial copper cable assemblies were developed to support SAS (Serial-Attached-SCSI) Enterprise storage networking links. These cables run at SAS 3Gb and 6G per lane and exceed SAS 2.1 requirements. These cables also support external SATA (Serial-Attached-ATA) storage networking requirements at 3Gb and 6Gb. Non-Equalized cables will perform at a maximum of 6Gb and Equalized a maximum of 3Gb. The SFF-8088 connectors feature low profile backshell enables easy access and removal in tight fitting areas. Applications include links for Drive to Host Controller Adapter, Host Controller Adapter to Switch and SAS Switch to Switch.

### Features & Benefits

Designed for 3Gb and 6G networking and exceed SAS 2.1 requirement

Connectors feature low profile backshell, enabling easy access and removal in tight fitting areas

### Specifications

#### General Info

Product Line	C2G	UPC Number	757120061755
Country Of Origin	Taiwan, Province Of China	Application Sector	Commercial, Industrial
Type	Cable		

#### Dimensions

Cable Length	1.6 ft
--------------	--------

#### Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

#### Technical Information

Jacket Rating	Standard Non-Rated
