

Mini-SAS four lane, passive twinaxial copper cable assemblies were developed to support SAS (Serial-Attached-SCSI) Enterprise storage networking links and connections between multiple storage arrays. These cables run at SAS 3Gb and 6G per lane and exceed SAS 2.1 requirements. Our cables feature 26-position SFF-8088 connectors with active circuitry to increase signal integrity over longer distances. Applications include Serial Attached SCSI, fiber Channel, 40-Gigabit Ethernet, and SONET. All of our cables are built to the highest standard of quality, workmanship and tested to the latest industry requirements.

Specifications

General Info

Product Line	C2G	Color	Black
Application Sector	Commercial, Industrial	Warranty Type	Lifetime
Type	Active Device, Cable		

Dimensions

Cable Length	82 ft
--------------	-------

Technical Information

Jacket Rating	Standard / Non-Rated	Cable Diameter	9.8 mm
Adapter Rear	Mini SAS	Adapter Front	Mini SAS
