

These cables are designed to support long length interconnects between active network equipment in data center and enterprise networking InfiniBand applications. Our QSFP+ active optical cable assemblies are constructed using premium optical cable and feature active QSFP+ (SFF-8436) connectors with pull-tab ejectors for easy connection to equipment. These assemblies support up to 4x10G per lane for up to 40Gb, meeting or exceeding current standards specifications.

Features & Benefits

- Designed for point to point connections between network equipment
- Supports up to 4x10G per lane for up to 40Gb, meeting or exceeding current standards
- Constructed with pull-tab ejectors on the connectors for easy connection to equipment

Specifications

General Info

| | | | |
|--------------------|------------------------|-------------------|---------------------------|
| Product Line | C2G | Color | Orange |
| UPC Number | 757120062073 | Country Of Origin | Taiwan, Province Of China |
| Application Sector | Commercial, Industrial | Type | Cable, Active Device |

Dimensions

| | |
|--------------|--------|
| Cable Length | 246 ft |
|--------------|--------|

Additional Information

| | | | |
|--------------------------|-----|--------------------------|------------------------------|
| Prop 65 Warning Required | Yes | Prop 65 Warning Language | Cancer and Reproductive Harm |
