C2G

C2G
9.8ft (3m) LC-SC 50/125 OM2 Duplex Multimode Fiber Optic Cable (TAA Compliant) - Orange
Part No. CG-11044

Cost-effective solution that provides higher bandwidth and transmission rates and supports longer distances with lower loss than 62.5/125 fiber. Specifically designed for use with today's narrower aperture components, this cable is fully compatible with multimode applications. The patented injection molding process provides each connection greater durability in resisting pulls, strains and impacts from cabling installs.

Each cable is 100% optically inspected and tested for insertion loss before you receive it. A pull-proof jacket design surrounds the popular 50/125 multimode fiber, immune to electrical interference.

Features & Benefits

- Designed to support gigabit ethernet, fibre channel, ATM, and internet protocol applications
- Optically inspected and tested for insertion loss
- Patented injection molding process for greater durability
- Pull-proof jacket design, immune to electrical interference
