

With SC to SC termination, this high quality fiber optic patch cable is specifically designed for ethernet, multimedia, or communication applications. The SC connector features a push-pull locking system.

The patented injection molding process provides each connection greater durability in resisting pulls, strains and impacts from cabling installs.

Each cable is 100% optically inspected and tested for insertion loss before you receive it. A pull-proof jacket design surrounds the popular 62.5/125 multimode fiber, immune to electrical interference.

Features & Benefits

- Designed to support gigabit ethernet, fibre channel, ATM, or any application that requires high speed data transfer
- Patented injection molding process for greater durability
- Optically inspected and tested for insertion loss
- Pull-proof jacket design, immune to electrical interference
