

With ST to ST termination, this high quality fiber optic patch cable is specifically designed for ethernet, multimedia, or communication applications. The ST connector features a bayonet locking system.

The patented injection molding process provides each connection greater durability in resisting pulls, strains and impacts from cabling installs.

Each cable is 100% optically inspected and tested for insertion loss before you receive it. A pull-proof jacket design surrounds the popular 62.5/125 multimode fiber, immune to electrical interference.
