

Twisted pair oxygen-free copper wire and foamed PE dielectric are optimized to fight noise and hum, and deliver excellent sound quality and audio signal transmission. The cable's bonded construction is designed for neat, easy connection of audio signals. The low loss 100% foil and spiral-wound oxygen-free copper (OFC) shielding protects the delicate signals from electromagnetic interference (EMI) and radio frequency interference (RFI). Color-coded molded connectors and an ultra-flexible jacket enable easy installation. Corrosion-resistant 24K gold-plated heavy duty contacts ensure a lifetime of performance.

Features & Benefits

Extends red and white RCA stereo audio cables

Plug and play using existing RCA audio cables

Available in lengths up to 25ft

Specifications

General Info

Product Line	C2G	Color	Blue
UPC Number	757120130406	Country Of Origin	China
Application Sector	Commercial, Residential	Type	Cable

Dimensions

Cable Length	6 ft
--------------	------

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	27 AWG
Plating Specification	Gold	Signal Transmission	Bidirectional
Cable Type	Audio, Extension	Jacket Rating	Standard / Non-Rated
Connector 2	RCA Stereo Audio Female	Connector 1	RCA Stereo Audio Male
