

This precision-engineered all-in-one bonded cable organizes and simplifies cable runs. The DVI-D dual link configuration provides enough bandwidth for resolutions up to 2048 x 1536 pixels, and allows high speed digital transmission up to 9.9 Gbps. The connectors are color-coded to match the ports on your personal computer or laptop, thus ensuring a simple connection.

Shielded undermold plus tri-shielding and braid shield protect against unwanted EMI/RFI interference. Gold-plated contacts provide full conductivity with no data loss. The black cable jacket disappears behind your desk to leave a clean organized look without the clutter and mess you'll have with ordinary individual extension cables. PC-99 color-coded connectors for easy installation.

Please Note: DVI-D supports digital signal only.

## Features & Benefits

- Convenience of having all the cables under one jacket
- USB can carry both the keyboard and mouse for the KVM
- DVI-D cable supports resolutions up to 2048 x 1536

## Specifications

### General Info

Product Line	C2G	UPC Number	757120141778
Country Of Origin	China	Application Sector	Residential, Commercial
Type	Cable		

### Dimensions

Cable Length	6 ft
--------------	------

### Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

### Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Video Resolution	QXGA (2048x1536)
-----------------	--------------------------	------------------	------------------

---

Cable Type	KVM, USB, Video	Jacket Rating	Standard Non-Rated
Data Transfer Rate	9.9 Gbps	Adapter Rear	DVI-D Dual Link Male, USB-B Male
Adapter Front	DVI-D Dual Link Male, USB-A Male
