

This U-Type Cable Management Support Bar is an ideal solution to provide cable strain relief at the rear of a standard 19in rack for horizontal wiring cables that are terminated to modular patch panels that do not include this type of cable management. The support bar is easily mounted with thumbscrews to the rear upright channels of a rack. Cables may be secured to the support bar using cable wraps or ties (not included).

Features & Benefits

- Used to maintain the installation practices as called out in the EIA/TIA 568 standard
- Mounted with thumbscrews to the rear upright U-channel of a rack
- Use with cable wraps or ties (not included) to secure cables
