

This Vertical Wall Mount Bracket is an ideal solution for mounting equipment parallel to the wall in applications where space is a premium and a full size rack or cabinet cannot be used. This bracket is available in 2RU, 3RU and 4RU sizes. The unique design supports the mounting of equipment that require cage nuts or threaded holes. The bracket is designed to be mounted six different ways: hanging vertically on the wall, flush and horizontal on the wall using dual brackets, horizontally under a desk top, hanging vertically on the side of 2in and higher Cablofil, hanging horizontally under any width Cablofil, hanging vertically on any 19in EIA style rack or cabinet. cable egress hole at the back of the bracket allows cables to be easily transitioned from inside a wall to the mounted equipment.
