

Strict building code requirements for cabling in plenum spaces have created installation challenges in settings such as schools, hospitals and other commercial buildings. C2G has expanded its connectivity portfolio to include a line of cables that are ideal for routing through plenum space above dropped ceilings or under raised floors.

Applications include voice/data/video distribution; this cable will handle bandwidth-intensive applications. Meets all Cat5E TIA/EIA standards, and reduces both impedance and structural return loss (SRL) .

Constructed from high quality plenum cable, this design minimizes Near-End Crosstalk (NEXT) levels. Available in Gray, Blue and Black to easily color-code your network installation.

## Features & Benefits

- Rated for Plenum, in-wall installations
- Available in lengths up to 100ft
- Cat5e cable with standard RJ45 connectors

## Specifications

### General Info

Product Line	C2G	Color	Black
UPC Number	757120152538	Country Of Origin	United States
Application Sector	Residential, Commercial, Industrial	Type	Cable

### Dimensions

Cable Length	5 ft
--------------	------

### Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

### Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Cable Type	Unbooted, Ethernet Patch Cable, Unshielded (UTP)
Jacket Rating	Plenum CMP-Rated	Adapter Rear	RJ-45 Male
Adapter Front	RJ-45 Male
