This external elbow is the ideal solution for making a right angle turn on the same surface and connecting two pieces of raceway. The external elbow attaches to the end of two pieces of raceway and allows cabling to make a turn while maintaining 1-1/4in (32mm) bend radius control and protecting bend sensitive cabling. Available in standard colors which match the raceway, this external elbow features a smooth plastic finish, which is paintable with latex paint, and is designed to work with 2800 series raceway.

## Features & Benefits
