

C2G  
**DISCONTINUED: 8ft (2.4m) Wiremold® Uniduct 2800 Multipack (20-Pack) - White (TAA Compliant)**  
Part No. CG-16081

Wiremold raceway is the ideal solution for routing and protecting fiber optic, UTP and other low voltage cabling- up to 50V. The Uniduct raceway features a co-extruded, flexible, PVC hinge that prevents cracking and splitting even after numerous openings and closings. The one-piece latch allows cabling to be secured within the raceway. The volume of this raceway will accommodate up to three Cat5e cables, two Cat6 cables, one Cat6a cable, two RG6/U coaxial cables or four zip cord fiber optic cables for 40% fill. This raceway is easy to install, and the smooth plastic finish, which is paintable using latex paint, ensures a match to the installation environment.

Note: Uniduct series raceway is not UL listed and is only designed for use in protecting low voltage wiring and cabling.

## Features & Benefits

One piece design with adhesive backing	Durable, flexible hinge construction
Impact-resistant PVC construction	TAA Compliant

## Specifications

### General Info

Product Line	C2G	Color	White
UPC Number	757120160811	Country Of Origin	United States
Application Sector	Residential, Commercial	Type	Raceway

### Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
