This internal elbow is the ideal solution for making a right angle turn on the same surface and connecting two pieces of raceway. The internal elbow attaches to the end of two pieces of raceway and allows cabling to make a turn while maintaining 1-1/4in (32mm) bend radius control and protecting bend sensitive cabling. Available in standard colors which match the raceway, this internal elbow features a smooth plastic finish, which is paintable with latex paint, and is designed to work with 2800 series raceway.

Features & Benefits

Bend radius compliant	Durable, impact-resistant PVC construction
Standard color to match 2800 series raceway	Paintable using latex paint
TAA Compliant
