

C2G
DISCONTINUED: 8ft (2.4m) Wiremold® Uniduct 2700 Multipack (20-Pack) - Fog White (TAA Compliant)
Part No. CG-16125

Wiremold raceway is the ideal solution for routing and protecting fiber optic, UTP and other low voltage cabling- up to 50V. The Uniduct raceway features a co-extruded, flexible, PVC hinge that prevents cracking and splitting even after numerous openings and closings. The one-piece latch allows cabling to be secured within the raceway. The volume of this raceway will accommodate one Cat5e or Cat6 cable, one RG6/U coaxial cable or two zip cord fiber optic cables for 40% fill. This raceway is easy to install, and the smooth plastic finish, which is paintable using latex paint, ensures a match to the installation environment.

Note: Uniduct series raceway is not UL listed and is only designed for use in protecting low voltage wiring and cabling.

Features & Benefits

- One piece design with adhesive backing
- Impact-resistant PVC construction
- Durable, flexible hinge construction
- TAA Compliant

Specifications

General Info

Product Line	C2G	Color	Fog White
