

C2G
DISCONTINUED: Wiremold® InteGreat Transition Channel (TAA Compliant)
Part No. CG-16239

Wiremold Meeting Room Solutions provide an integrated last meter solution for bringing power and technology closer to the user work area. Current trends in workplace design are allocating more open space for meetings. Those trends present a challenge for routing and managing cables from the infrastructure to the point-of-use, as well as providing ready accessibility for future technology upgrades. Meeting Room Transition Channel (MRTC) and Under Table Cable Management (UTCM) were designed as part of a flexible, integrated solution set that manages cabling and connections for power, communications and A/V from the building infrastructure to the work surface.

Features & Benefits

- Works in tandem with a variety of Wiremold pathway solutions such as OFR series Overfloor Raceway, Fire-Classified Poke-Thru Devices and Work Surface Portals
- Easy to cut to length to adapt to a variety of table lengths
- Designed to allow for convenient clean up of existing tables with little or no disruption to the connected cords and cables
- Future technology upgrades or room reconfigurations are completed with the least disruptions with an easy opening boot and channel

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	786776180091	Country Of Origin	United States
Application Sector	Residential, Commercial	Type	Raceway, Desktop Power Center

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
