

Just like the rest of the Evolution™ Series, these new boxes bring power, communications and A/V where you need it most. Delivering outstanding flexibility and functionality, as well as stylish good looks. Designed to hang flat screen displays in both new and retrofit applications, the wall box easily installs behind any display. The low profile allows even the flattest screen to sit flush against the wall. Making this latest box perfect for conference rooms, schools, patient care rooms, airports - anywhere media is required. Designed to fit and be concealed behind 42in or larger flat screen displays.

## Features & Benefits

Removable module for easier, quicker installation.

Maximum depth behind modules - 3 1/2in of space behind the device plate allows for most audio/video devices.

Storage module for active components - Storage compartment can accommodate active devices from most leading manufacturers.

Wiremold Part #: EFSB2

Built-in tunnel allows for additional capacity and wraparound capability.

Fully finished painted interior - Provides a professional, highly aesthetic look.

2in (51 mm) trade size conduit - Provides additional capacity for communications cables and pre-terminated audio/video cabling.
