

The radiant Furniture Power Center provides a sleek, modern design with the functionality of USB and traditional power in one unit. This convenient addition to furniture--with both charging and power--makes it a perfect solution for businesses such as coffee shops and restaurants, hotel guest rooms and lobbies, waiting rooms and offices, as well as for residential use.

Convenience

The compact, low profile design mounts quickly into most surfaces using screw clamps instead of wood screws. Installation is simple, and the included bezel gives a professional appearance by preventing exposed screws from being seen. The pass-thru plug allows you to connect the unit to any outlet--even one that is already being used.

Performance

The USB ports offer 5V, 3.1A of total charging power to quickly charge mobile devices. The power receptacles are protected against spills, and are tamper-resistant to protect yourself and your devices from damage or risk of injury.

Features & Benefits

- Compact, low profile mounting design
- 2 USB charging ports (5V, 3.1A total)
- Push button switch for cord-connected light fixture
- Screw clamps instead of wood screws
- 2 tamper-resistant receptacles
- Pass-thru plug on cord end
