

The DVI-I Female to DVI-D Male Adapter is the perfect solution for repurposing a DVI-I cable for use with a DVI-D source device or display. The adapter is compact and designed for minimal signal loss. The passive design of this coupler allows it to support video resolutions of up to 1080p.

Note: This adapter is passive and not able to convert an analog signal to a digital signal or a digital signal to an analog signal.

Features & Benefits

- Support video resolutions of up to 1080p
- Compact and designed for minimal signal loss
- Allows for a DVI-I extension cable to be used with an DVI-D display
