

The Smart 2-Port USB Car Charger is an ideal solution for charging mobile devices while on long road trips or short commutes. This high-performance car charger features a compact design for easy portability and provides a power output of 5V and 2.4A for device charging.

The charger includes two USB-A ports to charge two devices at once. The Smart-IC technology identifies the mobile device's unique charging requirements to safely charge at the maximum speed. Having the ability to detect the accurate current output allows for protection against overloads, which can damage valuable mobile devices.

5 volts and 2.4 amps of power are available for device charging from this adapter when it is plugged into a DC outlet. The 2.4 amps are shared by the two ports. The power output makes this adapter the perfect solution for charging smartphones and tablets.

Features & Benefits

- Two USB-A female ports
- Smart-IC technology auto detects output requirements
- Internal temperature protection
- Blue LED indicator when powered
- 5V, 2.4A maximum total output
- Accurate limited current output and overload protection
- Fireproof shell material

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120210702	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Adapter

Additional Information
