

100% manufactured and tested within the United States, this cable meets the stringent requirements for anyone who needs to procure products exclusively manufactured in the USA. For voice/data/video distribution, this cable will handle bandwidth-intensive applications. Meets all Cat5E TIA/EIA standards, and drastically reduces both impedance and structural return loss (SRL).

Each of the individual pairs is bonded together to help maintain the twist-spacing throughout the line right up to the termination point.

Constructed from high quality cable and a shortened body plug, this design minimizes Near-End Crosstalk (NEXT) levels. Available in a variety of colors to easily color-code your network installation.
