This high quality, universally compatible cable will work with KVM switches from many leading manufacturers. The 3-in-1 cable design combines the VGA monitor and PS/2 keyboard/mouse components into one cable that is split apart at each end. Connectors are color-coded PC-99 for simple plug-and-play installation. This unibody design makes them tangle-free, free from the clutter you would have with ordinary individual cables.

The VGA cable is built from a premium coaxial cable with individually shielded coaxial VGA lines for excellent video signal integrity with superior resolution and crisp ghost-free images. Cable has a flexible, rugged PVC unibody jacket for safety and durability. Single jacket with overall foil and woven braid shielding provides comprehensive EMI/RFI protection via multilevel shielding.

Features & Benefits

Convenience of having 3 cables under 1 jacket

PS/2 carries both keyboard and mouse for KVM

Available in lengths up to 30ft

Specifications

General Info

Product Line	C2G	Color	Beige
UPC Number	757120234739	Country Of Origin	China
Application Sector	Commercial, Residential	Warranty Type	Lifetime
Type	Cable		

Dimensions

Product Length US	6.0 FT	Cable Length	6 ft
