

C2G
Discontinued - 6.6ft (2m) TOSLINK® to Mini TOSLINK Cable
Part No. CG-27016

This TOSLINK to Mini TOSLINK cable is the perfect solution for connecting a full size TOSLINK port to a Mini TOSLINK port. Enjoy multi-channel, optical digital audio through this cable, which is ideal for a home theater, surround sound systems or Google Chromecast Audio. The optical digital audio is a light signal; thus reducing the chance of RFI, EMI or ground loop interference. The stylish, ultra-flexible PVC jacket enhances cable durability for years of listening pleasure. A 1mm low loss core conductor ensures low distortion to maintain an accurate digital signal. Protective plastic cover protects lens from dust, dirt and other debris while a non-slip rubber grip connector enables easy installation.

Note: This cable supports optical digital audio and is not designed to adapt a 3.5mm Stereo Audio port to a TOSLINK port.

Features & Benefits

Supports multi-channel, optical digital audio	Optical digital audio reduces the chance of RFI, EMI or ground loop interference
