

**C2G**  
**125ft (38.1m) Cat6 Snagless Unshielded (UTP) Ethernet Network Patch Cable - White**  
Part No. CG-27168

For fast Ethernet and Gigabit computer networks that require bandwidth-intensive voice, data, or video distribution applications. Meets all Cat6 TIA/EIA standards, and drastically reduces both impedance and structural return loss (SRL). Each of the individual pairs is bonded together to help maintain the twist-spacing throughout the line right up to the termination point. Constructed from high quality copper cable, this design minimizes Near-End Crosstalk (NEXT) levels. The molded, snagless boot prevents unwanted cable snags during installation and provides extra strain relief. Available in a variety of colors to easily color-code your network installation.

## Features & Benefits

Snagless design protects clips when plugging and unplugging

Standard RJ45 connectors and unshielded twisted pair wires

Available in 10 colors to color-code a network

Available in lengths up to 150ft

## Specifications
