

C2G
3ft (0.9m) Velocity™ Composite Video Cable
Part No. CG-27230

The Velocity video cable ensures vivid picture quality and maximum detail from your composite video sources. This cost-effective high-performance cable has a real performance advantage over cheap "included in the box" cables included with many consumer electronics products. The low loss 75 Ohm oxygen-free copper conductor and foamed PE dielectric maintain proper characteristic impedance, and guarantee that you will experience all the picture quality and performance your equipment can deliver.

An oxygen-free copper (OFC) braided shield protects against electromagnetic interference (EMI) and radio frequency interference (RFI). Fully molded connectors provide excellent strain relief. A flexible jacket and 24-karat gold-plated heavy duty contacts ensure long-lasting quality.

Features & Benefits

Designed to connect a composite video source to a composite receiver or display

Shielded to prevent unwanted EMI/RFI interference

Fully molded cable design

24-karat gold-plated heavy duty contacts

Specifications

General Info

Product Line	C2G	Application Sector	Residential, Commercial
--------------	-----	--------------------	-------------------------

Type	Cable
------	-------

Dimensions

Cable Length	3 ft
--------------	------

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------
