This Cat5e shielded network patch cable is an ideal solution for making a network connecting in a noisy, EMI/RFI, environment. The F/UTP shielding features an overall cable shield which provides protection from EMI/RFI noise and electromagnetic interference. This cable meets or exceeds industry standards for NEXT and return loss. The molded boot provides extra strain relief and durability. Available in a variety of colors to easily color-code your network installation.

Please Note: For maximum protection against EMI/RFI interference, use our Cat5E shielded patch panel (#03864) and Cat5E shielded keystone jacks for complete end-to-end protection.

Features & Benefits

- Designed for network adapters, hubs, switches, routers, HDBaseT applications and more
- Supports 1 Gigabit networks up to 328ft for fast data transmission and maximum performance
- Meets all Cat5e TIA/EIA requirements for supporting a wide variety of applications
- Constructed with shielded twisted pair (STP) wires, designed to protect a high speed network from noise and electromagnetic interference
- Snagless connector design for high density environments and protecting the RJ-45 connector’s lock
- Available in a variety of colors to color-code a network

Specifications

General Info

- Product Line: C2G
- Color: Blue
- UPC Number: 757120272465
- Country Of Origin: Vietnam
- Application Sector: Residential, Commercial, Industrial
- Warranty Type: Lifetime
- Type: Cable

Dimensions

- Product Length US: 5.0 FT
- Cable Length: 5 ft

Technical Information

- Jacket Material: PVC [Polyvinyl Chloride]
- Wire Gauge: 24 AWG
