

**C2G**  
**14ft (4.25m) Cat5e Snagless Shielded (STP) Ethernet Network Patch Cable - Red**  
Part No. CG-27262

This Cat5e shielded network patch cable is an ideal solution for making a network connecting in a noisy, EMI/RFI, environment. The F/UTP shielding features an overall cable shield which provides protection from EMI/RFI noise and electromagnetic interference. This cable meets or exceeds industry standards for NEXT and return loss. The molded boot provides extra strain relief and durability. Available in a variety of colors to easily color-code your network installation.

Please Note: For maximum protection against EMI/RFI interference, use our Cat5E shielded patch panel (#03864) and Cat5E shielded keystone jacks for complete end-to-end protection.

## Features & Benefits

Designed for network adapters, hubs, switches, routers, HDBaseT applications and more

Supports 1 Gigabit networks up to 328ft for fast data transmission and maximum performance

Meets all Cat5e TIA/EIA requirements for supporting a wide variety of applications

Constructed with shielded twisted pair (STP) wires, designed to protect a high speed network from noise and electromagnetic interference

Snagless connector design for high density environments and protecting the RJ-45 connector's lock

Available in a variety of colors to color-code a network

## Specifications

### General Info

|                    |                                     |                   |         |
|--------------------|-------------------------------------|-------------------|---------|
| Product Line       | C2G                                 | Color             | Red     |
| UPC Number         | 757120272625                        | Country Of Origin | Vietnam |
| Application Sector | Residential, Commercial, Industrial | Type              | Cable   |
