

C2G
DISCONTINUED: 500ft (152.4m) 16 AWG Bulk Speaker Wire
Part No. CG-27294

Whether installing your first home theater or just adding additional speakers, our speaker wire will deliver quality audio every time. Featuring easy-to-connect 99.9% pure copper conductors, this flexible speaker wire is easy to handle and install. A clear flexible PVC jacket surrounds two parallel conductors, one bare copper and one tinned copper conductor for easy identification of polarity.

Please Note: Banana plugs are not included with this bulk wire; this is not an interconnect.
