

This plenum rated Cat5e cable is perfect for creating custom length horizontal network cable runs. This cable meets all Cat5e TIA/EIA standards, and is designed to reduce both impedance and structural return loss (SRL). Each of the individual pairs are constructed from high quality copper cable and are bonded together to help maintain the twist-spacing up to the termination point. This design helps to minimize Near-End Crosstalk (NEXT) levels. The cable is foot-marked on the jacket indicating the amount cable remaining spooled in the easy-to-use pull box.

## Features & Benefits

- Perfect for installations that require cabling in a plenum air space
- Available in three colors and lengths up to 1000ft
- No-snag box makes pulling cable a cinch

## Specifications

### General Info

Product Line	C2G	Color	Gray
Application Sector	Residential, Commercial, Industrial	Type	Cable

### Dimensions

Cable Length	500 ft
--------------	--------

### Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

### Technical Information

Cable Type	Ethernet Patch Cable, Unshielded (UTP)	Jacket Rating	Plenum CMP-Rated
------------	--	---------------	------------------
