

C2G
12ft (3.7m) Value Series™ Bi-Directional S-Video to Composite Video Cable
Part No. CG-27965

Connect s-video devices (your laptop, PC or game console) to a TV without an s-video port. This bi-directional video cable converts a composite RCA signal to s-video or vice versa without using couplers that can cause signal loss. Quality 75 Ohm coax cable is double-shielded with 85% aluminum foil and braid to reduce unwanted noise and distortion.

The Y/C signal separation circuitry provides a bright, crisp picture from DVD player, VCD player, laser disc, VCR, camcorder, cable/DSS receiver, multimedia PC to an a/v receiver, TV or monitor. In addition to fitting standard s-video jacks, the precision-engineered bi-directional cables fit both 7-pin and 4-pin jacks on desktops and laptops with a TV out jack. Gold-plated terminals ensure long-lasting, corrosion-free connections. Flexible PVC jacket enables easy installation; NTSC and PAL compatible.

Specifications

General Info

Product Line	C2G	UPC Number	757120279655
Country Of Origin	China	Application Sector	Residential, Commercial
Type	Cable		

Dimensions

Cable Length	12 ft
