

For this adapter to work, your PC monitor must be capable of supporting Sun®'s scan rates and composite sync. Sun's scan rates are 61.8 kHz horizontal and 66 Hz vertical which eliminates flicker. Composite sync is horizontal and vertical sync combined. NOTE: If your PC monitor cannot scan at Sun's rates and support composite sync, the adapter alone will not work.

However you can call Integrix at 805-375-1055 to get a video card that will allow your PC device to adapt to a Sun workstation. Works with the NEC6FGP and NEC5FGP PC monitors, (in certain instances) with an SGI workstation and a PC monitor that can support sync on green, or with an SGI monitor (with a removable cable) to a PC workstation.

Specifications

General Info

Product Line	C2G	Color	Beige
UPC Number	757120282785	Country Of Origin	China
Application Sector	Commercial, Residential	Type	Adapter
