

C2G
DISCONTINUED: 3-Play™ S-Video + Composite Video + TOSLINK® Digital Audio High Performance Selector Switch
 Part No. CG-28731

Why connect and reconnect cables to manually switch between devices? Get rid of the cable hassle, and add flexibility to your home theater system with the 3-Play selector. Plug in this switch and quickly add three TOSLINK, three s-video, and three RCA composite audio/video ports to your system. Great for connecting three of the following: DVD players, satellite receivers, video game consoles or digital video recorders - any devices that have dual channel analog or TOSLINK audio with s-video or composite video.

This is an ideal solution for the a/v enthusiast who wants to take full control of an ever-expanding system. Use the wireless remote control or the three front panel input selector buttons to quickly change sources.

Please Note: This unit does not convert s-video to composite video, or composite video to s-video; the output signal is always the same as the original input signal. For your convenience, the following replacement parts are available for this item: Item #98009 - AC/DC Adapter, and Item #98014 - IR Wireless Remote Control. To order a replacement part, please call us.
