

Why be limited with the number of inputs your TV or receiver has? With this switch, you can plug in more sources than your TV or receiver can handle alone. Add flexibility to your existing audio/video system, or quickly connect multiple gaming systems. This solution is for the a/v hobbyist who wants to take full control of an ever-expanding system while adding flexibility and trouble-free cable management.

Virtually eliminate cable hassles with no more connecting and reconnecting cables. Plus, this selector accommodates DVD players, satellite receivers, game consoles, VCRs, VCDs, laser discs, camcorders, CD players, MDs, and other audio/video equipment. The front-mounted sliding switch enables easy selection of source devices, while the vertical tower design is a real spacesaver. No external power required.

Input: Four RCA Audio/Video Female, Four S-Video Female  
 Output: Two RCA Audio/Video Female, Two S-Video Female

## Specifications

### General Info

Product Line	C2G	Color	Black
UPC Number	757120287506	Country Of Origin	China
Application Sector	Residential, Commercial	Type	Switch
