

**C2G**  
**3ft (0.9m) Velocity™ RCA Component Video Cable**  
Part No. CG-29112

Improve the performance of your progressive scan video sources by providing a much better cable than "out of the box" cables included with most consumer electronics products. The oxygen-free copper center conductor and foam PE dielectric maintain a 75 Ohm characteristic impedance, and offer efficient signal transmission to deliver exceptional video detail, color and brightness.

The dual braided oxygen-free copper shields and 100% aluminum foil sheath protect against environmental noise and interference. The 24K gold-plated, heavy duty connectors ensure long-lasting, highly conductive signal connections; fully molded connectors provide excellent strain relief. The color-coded molded connectors attach to an ultra-flexible jacket, and enable easy installation and identification.

## Features & Benefits

Carries a Component Video signal

Constructed from 75oxygen-free copper

Foil and braided shield to protect from interference

## Specifications

### General Info

Product Line	C2G	Color	Blue
UPC Number	757120291121	Country Of Origin	China
Application Sector	Commercial, Residential	Warranty Type	Lifetime
Type	Cable		

### Dimensions

Product Length US	3.0 FT	Cable Length	3 ft
-------------------	--------	--------------	------

### Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Signal Transmission	Bidirectional
Cable Type	Video	Jacket Rating	Standard / Non-Rated
Connector 2	RCA Component Video Male	Connector 1	RCA Component Video Male
