

C2G
Discontinued - 15ft (4.6m) 12 AWG Velocity™ Speaker Cable
Part No. CG-29177

Get superb performance for any installation! With its ultra-flexible jacket for easy installation, Velocity speaker cable offers precise sound quality for today's audio and home theater applications. This 12 AWG oxygen-free pure copper stranded cable delivers clear audio performance within a wide dynamic range. It minimizes inductance and capacitance to ensure superior sound quality, a clean sound that is true to the source.

For low noise and distortion, each conductor is wrapped by polypropylene insulation. Corrosion-resistant, precision-made 24K gold-plated banana connectors ensure long-lasting sound quality, and enable this cable to deliver a rock-solid connection that provides fidelity and performance far in excess of its price. For price and performance, this is the right solution for connecting speakers to your receiver.
