

C2G
DISCONTINUED: DisplayPort™ to HDMI® HDBaseT™ Extender over Cat (TAA Compliant)
Part No. CG-29304

The DisplayPort to HDMI HDBaseT over Cat Extender is an ideal solution for connecting the DisplayPort output of a laptop or other device to the HDMI input of a HDTV or projector over a single Cat5e, Cat6, or Cat6a cable up to 300ft at a 1080p resolution. This solution is compatible with any operating system and is truly plug and play with no drivers or software required. This solution utilizes TruChoice™ power, which allows power to be supplied over the Cat cable to both the transmitter and receiver from a single power adapter placed at either the transmitter or the receiver end of the solution. HDBaseT technology supports HDCP and allows the Extended Display Identification Data (EDID) signals, i.e. communication of the display's capabilities, to pass through the extension solution ensuring that the content from the source is sent at the optimal resolution for the display. Built-in power surge protection and high ground loop immunity ensure high performance signal extension.

Features & Benefits

Extend DisplayPort up to 300 feet at a 1080p resolution

Utilizes a single Cat5e, Cat6 or Cat6a cable for extension

HDBaseT technology supports HDCP and EDID pass through

Includes a DisplayPort transmitter and HDMI receiver

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120293040	Country Of Origin	Taiwan, Province Of China
Application Sector	Commercial, Hospitality	Type	Extender, HDBaseT

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

Technical Information

Video Resolution	1080p	Adapter Rear	RJ-45 Female, HDMI Female
Adapter Front	DisplayPort Female, RJ-45 Female
