

Replace your overused or misplaced power cable, or just manage your power more efficiently. This handy cable features a flat male 3-prong plug on one end (flat for easy plug-in into surge protectors and UPS outlets) and a straight female 3-prong shroud on the other end. Simply plug the power cord's male prong into a standard outlet, and then plug the female connector directly into a device power cable and you're ready to power your devices.

Saves space and keeps your surge strip and UPS outlets from being blocked by bulky AC transformers. Ideal for use in compact workplaces or home offices where there is limited space for electronic equipment. Plus this heavy duty 18 AWG cord features a fully molded design for maximum durability and long life.

Compatible for power transformers, computers, monitors, scanners, printers, and other devices that use a 3-pin male to female shroud power connector.

Features & Benefits

- Heavy duty 18 AWG cord
- Fully molded cable design
