

The Chromebook Pixel adapter kit offers the connections you need while on-the-go. Bringing your own device to a meeting or presentation is an everyday occurrence, being able to connect to nearly any display is crucial. The USB-C to HDMI and USB-C to VGA adapters allow the Chromebook Pixel to connect to a VGA or HDMI input of a projector, monitor, or HDTV. The Gigabit Ethernet adapter offers up to 1000Mbps over Ethernet to nearly any desk, terminal, or office. Knowing that you have enough ports to support all your devices is certain when you plug in the USB-C to 4-Port USB-A hub. Whether you are out in the field presenting, hot-desking or at home streaming movies this adapter kit brings you the light-weight, portable, and simplified connectivity that you need.

USB-C to HDMI and USB-C to VGA Adapters

Ensure that you have the ability to connect your Chromebook Pixel to nearly any display. On-the-go, presenting, or in a meeting you never know what connections will be available when you are setting up. There is no need to install or update drivers, no need to plug into power, and no need to call IT, just plug in the desired adapter and waste no time inspiring your audience.

Gigabit Ethernet Adapter

As you are traveling you will most likely run into areas where Wi-Fi is not reliable, you may need to enter passwords that constantly change, or you may lose signal all together. Using this adapter with your Chromebook Pixel will ensure that you stay connected in areas with spotty or difficult Wi-Fi by connecting to a hardwired network.

USB 4 Port Hub

This hub offers backward compatibility with USB 3.0, USB 2.0, and USB 1.1 devices. The slim line design maximizes the portability while expanding the capability of a single USB-C port to 4 USB-A ports enabling you to connect your flash drive, mouse, printer, or external hard drive. Pairing this hub to your Pixel provides the functionality you need to compliment your workstation or your BYOD, on-the-go lifestyle.

Note The Chromebook Pixel is not included in this kit.
