

C2G
Discontinued - 23ft (7m) 10G-CX4 Latching Cable
Part No. CG-33074

Our 10G-CX4 latching cable incorporates semi-automated manufacturing, innovative cable and connector designs, and unique materials to provide an interconnect ideally suited for 10G-CX4 applications. This cable, which is part of the 10G ethernet standard, provides superior signal fidelity over a long distance. It is engineered to be compliant with the IEEE Draft P802.3ak/D5.3 specification.

Features & Benefits

Provides a secure connection to hardware

Designed for high performance 10G-CX4 applications

Available in lengths up to 10m

Specifications

General Info

Product Line	C2G	Color	Black
Warranty Type	Lifetime	Type	Cable

Dimensions

Cable Length	23 ft
