

C2G  
**DISCONTINUED: 65.6ft (20m) MTP/MPO 62.5/125 Multimode Fiber Optic Assembly Ribbon Cable - Plenum CMP-Rated - Orange (TAA Compliant)**  
Part No. CG-33090

Make MTP/MPO your choice for high density fiber networks; it's specifically designed for fast ethernet, fiber channel, ATM and gigabit ethernet applications. Save time and money with MTP/MPO's increased ease of installation - simply pull one cable rather than twelve. Each MTP/MPO fiber assembly consists of twelve laser-optimized, 62.5/125 multimode fibers under one OFNP plenum-rated jacket.

With our MTP/MPO, it's possible to run a single cable that automatically terminates twelve fibers in one easy plug-in. Plus, the small form factor of an MTP/MPO connector provides a higher port density. With its push-pull release mechanism, the MTP/MPO connector is easy to engage and disengage. Plus, its latch design prevents the plug from snagging when jumper cables are being routed. Straight-through pinning; immune to electrical interference.

Please Note: MTP/MPO is a registered trademark of US Conec Ltd.

## Features & Benefits

Designed to support gigabit ethernet, fibre channel, ATM, or any application that requires high speed data transfer  
Plenum rated for cable runs through walls and drop ceilings with plenum air space

Ease of installation - simply pull one cable rather than twelve

Small form factor provides a higher port density

Push-pull release mechanism and latch design for easy use
